Handbook of UGC-NET for
Library & Information Science

Dr. Tariq Ashraf
Sanjay Kumar Jha

Over the period of time National Eligibility Test (NET) has become an important method of testing the ability of young library professionals. Based upon the new syllabus recently laid down by UGC, the revised and enlarged edition of handbook contains probable material for papers II and III and contains more than 5000 solved questions. Essentially designed for UGC-NET aspirants, the handbook will also be helpful in various other entrance examinations for the post of Librarians in J.N.V., K.V., SET, SLET and other similar tests for government organizations.

With lucidity in the style of narration, analytical presentation, integral approach to the problem solving matters and actual questions asked in the NET examination, the book is definitely going to be a valuable addition to testing literature. Having been added more value by including up-to-date information in the light of revised pattern of test, the Handbook will emerge as important resource for a large number of aspirants and help them to qualify the examination which provides better job opportunities for them and qualified candidates to the profession.
