August 18, 2025

Dear Guests,

We are delighted to welcome you back to the Grand University Hotel, where your comfort, convenience, and academic success are our foremost priorities. Recent disruptions like HVAC repairs, mold remediation, water leakage, and even gas pipeline upgrades have been necessary to ensure that your stay remains world-class. Please accept our apologies for any inconvenience caused.

While a few weeks of classes may have been temporarily paused, fear not: your academic outcomes remain fully guaranteed. Exams have been digitized for your convenience, resits meticulously scheduled, and extra sessions arranged wherever possible. Faculty may be juggling multiple software platforms, classroom bookings, and attendance systems behind the scenes, but these are mere technicalities. Your learning experience will remain seamless.

**Luxury Infrastructure at Your Service**

---

The University Hotel is proud to offer:

- **Multiple biometric systems:** classroom attendance, building entry, faculty lounges
- **Exclusive sports facilities:** swimming pool, lawn tennis, padel, and horse-riding arenas, each requiring additional secure access
- **Dining blocks and cafés:** with freshly redesigned menus to adapt to ongoing maintenance and staffing constraints

While our faculty, staff, and housekeeping teams navigate these systems, your experience remains uninterrupted. Every effort has been made to ensure that you can study, meet your academic goals, and enjoy campus amenities without distraction.

## **Academic Outcomes: Guaranteed**

---

We understand that your goal is academic success. That is why:

- **Weeks of classes removed?** We ensure you still meet all learning outcomes.
- **Exams adapted to digital platforms?** Your grades will reflect your full potential.
- **Readings limited for palatability?** Skills and knowledge acquisition continue, now optimised for efficiency.
- **Resits and accommodations?** Faculty are on hand to create as many opportunities as necessary for you to clear courses.

Behind the scenes, faculty effort is coordinated to maintain these outcomes. The process of deep reading, critical discussion, or research may sometimes appear secondary, but we assure you: measurable success, the kind valued in transcripts and CVs, is our top priority.

## **Faculty: Always on Call for Your Academic Comfort**

---

Our University Hotel also offers guided mentorship for early student publications. Faculty dedicate time to shepherd students into high-quality journals, effort that is invisible to most but crucial for ensuring your portfolio shines. Again, the process of education itself is less important than the guaranteed outcomes, and our systems are designed accordingly.

## **Humanities with a touch of Hospitality**

---

While you enjoy world-class amenities, our faculty events are curtailed to manage costs. Four-hour invigilations for students registered with disabilities proceed without refreshments due to the exorbitant cost of chai-samosa in NCR. Faculty may need to work a little harder to support resit exams and prepare digital assessments, yet your comfort and success take precedence at every turn.

The Grand University Hotel's governance ensures that infrastructure, digital systems, and measurable outcomes dominate all decision-making. Pedagogy, scholarship, and the intrinsic value of learning are often invisible to the priorities that shape our day-to-day operations.

## **Check In, Relax, and Let Us Handle the Rest**

---

Our promise:

- Seamless coordination of exams, resits, and digital platforms
- World-class sports and dining facilities, fully functional
- Guaranteed academic outcomes without disruption

Please relax, check in, and leave the complexities of learning, scheduling, and assessment to us. Your comfort, convenience, and guaranteed success are what we prioritise, education in its messy, unpredictable form is left to us behind the scenes.

With utmost care and dedication,

The Grand University Hotel Management Team

*Questions about syllabus planning? Drop them at the concierge. Need extra pillows or late-night snacks? Our team is on it pronto.*
